## SUSTAINABILITY CHARTER

Informa Medical Aesthetics, organizers of AMWC, aims to host eco-friendly events that support the global aesthetics community at all levels.

Additionally, AMWC is proud to support causes aimed at expanding access to essential aesthetic and anti-aging medical treatments worldwide.

# DEAR FRIENDS, DEAR COLLEAGUES,

We are delighted and honored to welcome you to the **22<sup>nd</sup> edition of the AMWC in Monaco, from March 27 to 29, 2024**. The conference is held under the high patronage of H.S.H Prince Albert II of Monaco. AMWC is designed to encourage excellence and inspire advancement across all disciplines of aesthetics and anti-aging medicine.

Our Scientific Committee is proud to present you with a 3-day scientific program that promises to deliver a dynamic educational experience enriched with valuable networking opportunities.

The content has been built under the **scientific supervision of the AMS (Aesthetic Multispecialty Society)**. Disciplines include dermatology, aesthetic medicine, minimally invasive surgery, functional and aesthetic gynaecology, anti-aging medicine, hair restoration, regenerative aesthetics and more.

Delegates can expect a world-class program and event centred around AMWC's four foundational pillars: **evidence, engagement, excellence, and expertise**.

Scientific sessions are built upon the latest evidence-based research and aim for high-level engagement that will result in critical reflection, academic debate, and meaningful skill enhancement. All AMWC's sessions will be brought to you by **prominent international thought leaders who are eager to share their expertise** to help fellow physicians and clinicians achieve excellence in their practice.

In addition to the main program, AMWC 2024 also features an unmissable practical pre-congress course on March 26: **THE MONACO ADVANCED FACIAL AESTHETIC MASTERCLASS**. This course will present a new dimension of core facial aesthetic treatments focused on enhancing techniques and combination treatments for the Full Face Enhancement and Rejuvenation.

Aspiring for advancement and excellence is a running theme at AMWC, this theme continues with our **10<sup>th</sup> AMWC Aesthetic Medicine Awards** — a competition that gives recognition to physicians and companies who have gone above and beyond in this industry.

Please join the Awards Ceremony on Wednesday, March 27, at 5:30PM (Camille Blanc room) as we celebrate the achievements of our peers!

Between your sessions, sponsored workshops, and meetings, make sure to explore our 5-floor exhibition area featuring **over 300 of the industry's leading and most trusted companies**.

Not only will you be able to have the first look at the latest technologies, but you will also be able to see them in action at talks and live demonstrations throughout the exhibition.

Lastly, thank you to our sponsors, speakers, and of course our delegates for your continued support.

WELCOME to the 22<sup>nd</sup> AMWC! Enjoy the conference!

# GLOBAL AESTHETIC MEDICINE

*Beauty Inside & Out*

The **Monaco Advanced Facial Aesthetic Masterclass** is aimed at high level discerning doctors in aesthetic medicine. In-depth knowledge of clinical facial anatomy combined with advanced injection techniques ensure SAFE and optimal results in aesthetic medicine.

This year, the focus is on **"FULL FACE" Beautification and Rejuvenation treatments**, feat. in-depth clinical facial anatomy and live injections.

**Regenerative Aesthetic procedures** will also be addressed, including epigenetics, cell therapy (PRP & Exosomes), peptides, and cosmeceuticals for optimal results.

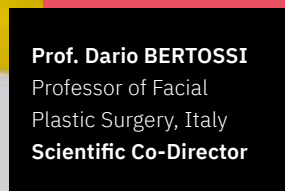

Clinically relevant techniques relying upon ultrasound and cadaveric anatomy are mastered and demonstrated by top experts who operate and see the live anatomy of facial tissues on a weekly basis. An eminent faculty of specialists have been selected to treat patients on stage and share the most relevant pearls and pitfalls aiming to safeguard and grow your aesthetic practice. Carefully selected models with challenging features are selected with emphasis on cultural, ethnic and gender variations. The lecture topics will be put into practice in the live show where injectors will have ample time to discuss surface anatomy, choice of injectables, techniques, precautions and after care.

## LASERS & EBD FORUM

**CHAIR:** Klaus HOFFMANN | **Co-CHAIR:** Michael GOLD | **MODERATOR:** Ines VERNER

- Practical aspects of basic laser physics and laser tissue interactions
- The use of non-thermal laser technology (NTLT) in aesthetic medicine
- Ultrasound technology using high-intensity parallel beams to improve skin conditions
- Acne vulgaris treatments with lasers & EBD's in 2024
- Combining biostimulatory fillers with Energy Based Devices for skin rejuvenation and scars
- New approach for skin rejuvenation: Multiples technologies - Fractional ablative / nonablative / picosecond, subdermal skin resurfacing on face, neck and chest in a single session
- New device making use of microwaves 2.45 GHz for special performances in face tightening following the anatomical and individual characteristics of the patients
- 3D collagen biostimulation: CaHa, HIFU and PDO threads
- Combining broadband light therapy and non-ablative 1927 nm laser treatment for Intrinsic aging and pigmented skin lesions
- How I combine EBD: Top tips uncovered!
- Use of 1927nm diode laser in the management of melasma in Latam phototypes (Fitz Patrick 3 to 5). First 150 cases
- Red light therapy for reduction of the duration and severity of herpes labialis
- 1726nm Diode Laser to hit sebum - To treat mild to severe acne

## AESTHETICS DISRUPTORS: YOUNG-CAREER INNOVATORS FROM AROUND THE WORLD (PART 1)

*For the second year in a row, AMWC is bringing the next generation of doctors to the stage, eager to present their breakthrough research. The applicants' work has been pre-selected independently, based on key criteria such as Relevance, Coherence, Effectiveness, Originality & Impact, and Evidence Base.*

*We're proud to share and hear the best ideas from Aesthetic Disruptors as they make their presentations in this session. Join us to examine, analyze, and discuss the big-picture implications for the future of our field. Don't miss this chance to hear the most innovative ideas and research!*

**CHAIR: Henry DELMAR | Co-CHAIR: Benoit HENDRICKX | MODERATOR: Daniel KALBERMATTEN**

- Introduction to the session
- Scars treatment on face and body
- Hyaluronic acid injection for vulvovaginal atrophy
- Promoting adipose tissue formation and survival through pre- and post-conditioning using external volume expansion
- A new solution technique for rhinoplasty complications in rabbit model: Cartilage production by bioprinting
- Empowering transformation: A minimally invasive method for lasting nipple-areolar complex reconstruction and augmentation
- Use of a specific treatment protocol for surgical scars in a mobile device application

PANEL DISCUSSIONS: Hema SUNDARAM, Ashraf BADAWI, Naci CELIK, Amelia HAUSAUER, Benoit HENDRICKX, Dalvi HUMZAH, Jonathan KADOUC, Thomas RAPPL, Peter VELTHUIS

- Welcome and Session Overview Hema SUNDARAM, Dalvi HUMZAH

DO FAT COMPARTMENTS SHRINK WITH AGE?

The belief that aging faces lose fat is foundational to our rejuvenation strategies. But how can we actually distinguish fat loss from fat displacement... and what are the implications for all we do in minimally invasive aesthetics?

- Do Fat Compartments Shrink with Age? - Critical appraisal of the data Thomas RAPPL
- PANEL DISCUSSION: Fat compartments

TRICK OR TREATMENT - THE CAMERA SOMETIMES LIES! - PART 1

In each of these Interludes to highlight the importance of standardized imaging, our dedicated Evidence vs. Marketing faculty will present some impressive Before and After images. It is for you as our audience to decide whether these are real results from a procedure, or effects of the camera angle, lighting, patient position etc. In the Big Reveal, our faculty will show us exactly how the "tricks" were set up.

- PANEL DISCUSSION: The before and after - The big reveal!

EXOSOME FEVER!

What would an Evidence vs. Marketing session be without a frank, fearless and evidence-based look at industry's latest darling?

- Critical appraisal of the data Amelia HAUSAUER
- PANEL DISCUSSION: Exosomes

TRICK OR TREATMENT - THE CAMERA SOMETIMES LIES! - PART 2

Our second Before-and-After challenge with the Big Reveal

IS HA REALLY RESORBABLE?

How much HA really vanishes with time from where it's injected, and how much migrates and gets sequestered? Should we even be using the term, "migration"... and what about HA breakdown products?

- Critical appraisal of the data Peter VELTHUIS
- PANEL DISCUSSION: Is HA really resorbable?

TRICK OR TREATMENT - THE CAMERA SOMETIMES LIES! - PART 3

Our final camera challenge and Big Reveal!

ARTIFICIAL INTELLIGENCE - BLESSING OR CURSE?

How will today's big changes impact our tomorrow? Should we be worried - or, have reports of our own demise as human practitioners been greatly exaggerated?

- Critical appraisal of the data Benoit HENDRICKX

MFU AND HIFU

With over a decade of practical experience, what's the evidence for efficacy and safety of microfocused and high-intensity ultrasound, can they really lift faces, and are surgeons' concerns justified?
