AMWC GLOBAL

The Virtual Edition Live from Monaco and across the globe

Dear Friends, Dear Colleagues,

As we continue to monitor the global situation in these challenging times, we at AMWC remain committed to continuing medical education and keeping the global aesthetics & anti-aging community connected, inspired and energized.

This has led us to reimagine our annual events, combining the strengths of our leading international events, **AMWC Monaco**, **AMWC Latin America**, and **ICAD Bangkok** to create **AMWC Global**.

On **5-6-7 November 2020**, we will deliver an immersive virtual experience streamed worldwide providing a unique and innovative congress for our doctors, industry professionals and exhibitors.

This event will include advanced, **AI-driven networking features** available to all participants, as well as a full exhibition with all the industry's leading and up and coming brands.

Take full advantage of our virtual platform to meet exhibitors and attend their workshops online. Take part to explore all possibilities from this exceptional experience.

We look forward to welcoming you to AMWC Global.

Scientific Director

Dr. Rataporn UNGPAKORN
Dermatologist,
Secretary-General

INTERNATIONAL SCIENTIFIC COORDINATION

Dr. Rungsima
WANITPHAKDEEDECHA
Dermatologist, Thailand

DEAR COLLEAGUES AND FRIENDS,

This year has marked another challenging step for us all. **ICAD 2020**, organized in partnership between the **Dermatological Society of Thailand (DST)** and **EuroMediCom**, still maintains its role and ambition in sharing knowledges and expertise in medical aesthetics for the Asian medical community.

In light of the ever evolving global situation, we are pleased to announce that this year's version of ICAD will be integrated with the world's largest international virtual meeting specializing in anti-aging and aesthetics medicine: **AMWC GLOBAL – The Virtual Edition on November 5-6-7, 2020.**

Live from Monaco and accessible across the globe, AMWC Global is a cost-efficient way to attend ICAD from the safety of your home. Access ICAD's high-level scientific agenda on **6-7 November streamed live on our new immersive virtual platform.**

This Edition will also include advanced, **AI-driven networking features** available to all participants, as well as a full exhibition with all the industry's leading and up and coming brands.

Take full advantage of our virtual platform to **meet exhibitors and attend their workshops online.** Take part to explore all possibilities from this exceptional experience.

We look forward to welcoming you to **ICAD 2020 Digital Event.**

We're proud to invite you to the **AMWC-LATIN AMERICA**, the leading Latin American event in Aesthetic and Anti-Aging Medicine.

This year, AMWC-LATIN AMERICA will join the AMWC Global on its virtual platform providing a highly interactive and networking opportunity. Under the scientific supervision of the **Aesthetic Multispecialty Society (AMS)**, the event features a stimulating and multidisciplinary program, tailored to entice the exchange of ideas, educate and renew knowledge, share expertise, discuss experiences and facilitate networking opportunities.

Thanks to our Scientific Committee, the AMWC-LATIN AMERICA tracks are constructed with a **truly scientific content presented by leading faculty members**. The AMWC Global platform also provides an industry showcase with the latest products, technologies and services.

We trust that you will find the event as enriching and rewarding.

11:30AM 1:30PM	PROFILE ENHANCEMENT AND RESHAPING WITH INJECTABLES	
CHAIR: Thierry BESINS • Co-CHAIR: Yates Yen-Yu CHAO		
<p>The facial silhouette is an essential element in the perception of one's age and attractiveness. So much so, that a simple profile line in Chinese shadow theatre projection is enough to create an opinion on age and “beauty levels”. It is therefore necessary to understand the instinctive perception codes conveyed instantly at the sight of a profile.</p> <p>What to do, where and why: this is the exciting challenge of medical profiloplasty whose aim is to increase attractiveness through creating harmony between the face's 3 tiers and rejuvenate by re-creating forms commonly attributed to younger people.</p> <p>The challenge is to define in detail the zones or microzones to be modified, taking into account all the constituent elements of the profile: Forehead, eyebrows, glabella, dorsum, supratip, tip definition, lips, chin, premalar area...</p> <p>Very subtle and positive modifications of those areas may result in an amazing improvement on the perception of age and attractiveness.</p>		
<ul style="list-style-type: none">The concept of medical profiloplasty and its principles Thierry BESINS3D Profiloplasty: How and where to inject according the newest anatomical evidences Fabio INGALLINA		
<ul style="list-style-type: none">Advanced profiloplasty - Step by step injection training - Upper Face Yates Yen-Yu CHAOAdvanced profiloplasty - Step by step injection training - Midface Dario BERTOSSIAdvanced profiloplasty - Step by step injection training - Lower Face Bob KHANNA

AMWC STREAM 2

9AM - 10:30AM	SUSPENSION THREADS IN SURGEON'S ARMAMENTARIUM: “NICE TO HAVE” OR “MUST HAVE”?	
Chair - Thierry BESINS • Co-Chair - Naci CELIK		
<p>The time for debating the effectiveness of threads has now past. They have now proven themselves and can compete with the facelift!</p> <p>Expert international surgeons will give their opinion on the place of threads in their therapeutic procedures for facial rejuvenation. The scalpel, the cannula, LipoStructure and threads will become the four essential tools of the minimally invasive facelift.</p> <p>Tensor threads will inevitably be the mark of the decade due to the many possibilities they offer to practitioners in the field of rejuvenation: Closed lifting in the clinic under local anesthesia, without scarring; aging prevention in young patients; as a complement to conventional surgery for non-operated areas; to retouch or optimize a conventional surgical facelift; to aid the ascent of tissues in a small skin section through a minimally invasive facelift using small tracts, among many others.</p> <p>In summary, “thread lifts”, if permanent, will become an essential tool which will be used alone or in combination with a classic or minimally invasive surgery. Thus, they give the practitioner the choice among several possibilities, depending on the cases and patients’ wishes.</p>		
<ul style="list-style-type: none">Threads: New tools and new strategies for facial rejuvenation Olivier CLAUDEBiomechanics of traction relay in facelift Henry DELMARSurgical face lift or thread lifts? Or should we choose the combination? Naci CELIKFat grafting, nanofat and fat enriched stem cells Ibrahim ELACHKAREfficiency and durability of permanent tensor threads depending on the areas of the face and the neck Bernard CORNETTE DE SAINT CYRThreads: Why, When and How? 1:30PM - 3:30PM	EVOLUTION OF REGENERATIVE AESTHETICS WHERE ARE WE NOW?
CHAIR: Pietro GENTILE • Co-CHAIR: Aris STERODIMAS	
<p>Centuries ago, prediction was an enterprise entrusted to magic and fortune tellers. Today it is the domain of knowledge to which researchers and scientists contribute daily, analyzing and interpreting pathologies as well as trying to decode the complexity of life presented by unresolved problems..</p> <p>Regenerating damaged organs and tissues, an act that was also once called magic is now entrusted to the same scientists and translational surgeons who, through the entrance of the laboratory in the operating room, have allowed us to move from replacement surgery to regenerative medicine with cell therapies and tissue engineering aimed also currently in aesthetics improvement.</p> <p>The passion for Regenerative Aesthetics and for the treatment of some issues addressed by it, such as Alopecia, Aging, Skin laxity, Breast and Buttock hypoplasia has led over the years, several scientists to better investigate, through rigorous scientific studies, the possible new autologous therapies in the treatment of these issues.</p> <p>This session aims to show all the latest knowledge on Platelet Rich Plasma, Fat Grafting, Adipose derived stem cells, Human Follicle Stem cells in the treatment of Alopecia, Face Aging, Skin laxity and Breast hypoplasia delivered by the experts in the field.</p> <p>This session will therefore provide state of the art research in 2020 within the field of regenerative aesthetics.</p> <ul style="list-style-type: none"> Injectable anti-aging - PDRN, peptides, PRP, biochemical agents - How we can influent Alexander TURKEYVCH Platelet Rich Fibrin - The latest in autologous blood concentrate therapy for the aesthetic practitioner and surgeon Kian KARIMI The combined use of fat graft, adipose derived stem cells (ASCs) and platelet rich plasma (PRP) in breast augmentation Pietro GENTILE The use of Platelet Rich Plasma (PRP) and Human Follicle Stem Cells (HFSCs) in hair loss and androgenetic alopecia Pietro GENTILE Combination of platelet rich plasma and adipose stem cells - Scientific and clinical rationale in regenerative aesthetics Randy MILLER Fat grafting, nanofat and fat enriched stem cells Ibrahim ELACHKAR Stromal enriched lipograft in aesthetic regenerative surgery Aris STERODIMAS CaHA as a biostimulator Gabriela CASABONA A hyaluronic acid-based filler reduces adipocyte lipolysis and maintains long-term differentiated preadipocytes adherence and lipid accumulation in human primary adipocyte Férial FANIAN

10:15AM 11:15AM	SKILLS SERIES : MASTERING VIDEO COMMUNICATION TO GROW YOUR PRACTICE	
MODERATOR: Ratchathorn PANCHAPRATEEP		
If we have learned anything from the last few months, it is how important it is to communicate with patients through electronic means. Projecting knowledge, confidence, and caring online is becoming increasingly important to attract, retain, and grow a patient base. Yet, most clinicians have never been trained to create persuasive videos. Learning to craft, produce and disseminate videos is a skill that can be acquired. In this three-part series, noted aesthetic and anti-aging consultant, Dr. Mark Tager, will teach you what to do and how to do it.		
Part I: Mastering the Basics: Looking and Sounding Great (20 min) Mark TAGER		
<ul style="list-style-type: none">How to compose an effective video messageHow to produce practice-promoting videos inexpensivelyHow to overcome on-screen anxietyHow to select lights, cameras, sound, locationHow to simply edit your videos

SCAR 2020

MODERATORS: Pimpa TANTANASRIGUL, Irene Gaile C. ROBREDO-VITAS

Despite an increase in the variety of procedures for the management of scarring, prevention and treatment of scars continues to be a persisting challenge. Several less invasive procedures can be employed with equal or greater outcomes in different scar types.

- Acne scar treatment
Irene Gaile C. ROBREDO-VITAS
- Effects of Botulinum toxin A on hypertrophic scar fibroblast
Chinnavuth VATANASHEVANOPAKORN
- Fat graft for scar treatment
Kritsada KOWITWIBOOL

11AM - 1PM

DON'T CROSS YOUR FINGERS
IT'S NOT HOW YOU'LL DEAL WITH RISK

MODERATORS: Wilai THANASARN-AKSORN

This is a "must see" session comprising the highlights and essential points from the experts' experience. Facial procedures with injectables have an inherent degree of risk and associated complications. Certain risks are irreversible and catastrophic especially those associated with ocular emboli, occlusion or blindness. With proper knowledge and techniques, complications can be at least significantly reduced or even completely avoided. No need to cross your fingers anymore!

- Safety practice in neuromodulators injection
Marisa PONGPRUTTHIPAN
- How to avoid complication after BoNT therapy and to improve your clinical results
Olga ZABNENKOVA
- Common complications of collagen stimulating products and their management
Shang-Li LIN
- The use of hyaluronidase in reversing filler associated vascular occlusion
