AMWC

16th Aesthetic & Anti-aging Medicine World Congress

Aesthetic Dermatology and Surgery, Preventive and Anti-aging Medicine

Dear Friends, dear Colleagues,

It is a great pleasure and an honor to extend you our warm invitation to attend the

16th Aesthetic & Anti-aging Medicine World Congress - AMWC,

to be held **April 4-7, 2018** in Monte-Carlo under the High Patronage of H.S.H. Prince Albert II of Monaco.

Under the scientific supervision of the World Society of Interdisciplinary Anti-aging Medicine (WOSIAM), the conference will feature a highly interactive, stimulating and multidisciplinary program and will provide the ideal forum to stimulate ideas, educate, share expertise, initiate intense discussions and extend networking opportunities.

Many distinguished physicians, medical experts and scientists have joined the faculty and will take part in this congress.

AMWC 2018 will give a special recognition to Taiwan for its contribution to the advancement of global anti-aging medicine. Taiwan is one of the world's most dynamic settings in aesthetic medicine, strategically located between East and Southeast Asia. We are thrilled to welcome key opinion leaders of Taiwan aesthetics, and we would like to invite you to observe their techniques and expertise.

PATIENT SAFETY, which is the number one priority and is at the core of our standards, will be the main theme of the conference in 2018.

As defined by the World Health Organization, **"patient safety is the absence of preventable harm to a patient during the process of health care. The discipline of patient safety is the coordinated efforts to prevent harm, caused by the process of health care itself, from occurring to patients. Patient safety has been increasingly recognized as an issue of global importance, but much work remains to be done"**.

Patient assessment - High standard care and the best results for patients - Improved understanding of how to tackle and manage possible complications - Comparison of various treatments to determine the most suitable for patients - Specific technique discussions... and many other patient safety related issues, will be developed throughout the scientific sessions, panels, live demonstrations and problem-based debates.

To further building momentum to your practice, the two Pre-congress programs this year provide additional continuing education opportunities as well as world-class scientific content.

ADVANCED FACIAL AESTHETIC MASTERCLASS will present a new dimension of treatment based on Core Facial Aesthetics.

The advanced course on GENITAL REJUVENATION & COSMETIC GYNECOLOGY will emphasize on the latest knowledge and breakthroughs covering a diversity of topics.

Every year, this highly awaited event attracts over 10 000 participants coming from more than 120 countries.

Over 300 leading international companies, showcasing on the 5-floor exhibition area, will be there to let you discover their latest products, technologies and services.

See you in Monaco! We hope you will enjoy the congress where you will find the best and the brightest!

In depth knowledge of **Clinical Facial Anatomy** combined with **Advanced Injection Techniques** ensure SAFE and Optimal results in Aesthetic Medicine. The AMWC Advanced Facial Aesthetic Masterclass is aimed at high level discerning doctors in aesthetic medicine. Two modules of The Top Ten clinically relevant Anatomic Zones will be the focus of each yearly masterclass.

Central Forehead & Temple region will be the focus of the morning program and **Lips & perioral region** will be covered in the afternoon.

Clinically relevant anatomy is mastered and demonstrated by top plastic surgeons who actually operate and see the **live anatomy** of facial tissues on a weekly basis. An equally eminent faculty of specialists have been selected to inject these focus zones and share the most relevant pearls and pitfalls aiming to safeguard and grow your aesthetic practice.

Carefully selected models with challenging features within the focus zones are selected with emphasis on cultural, ethnic and gender variations.

The lecture topics will be put into practice in the live show where paired injectors will have ample time to discuss surface anatomy, choice of filler and toxin, mode of injection, precautions and after care.

ADVANCED COURSE IN GENITAL REJUVENATION & COSMETIC GYNECOLOGY

WEDNESDAY 4 APRIL 2018 · ROOM VAN DONGEN

4
APRIL

7:00
REGISTRATION
& BADGING

Recent breakthrough in the aesthetic field and responding to the intimate needs of men and women, cosmetic gynecology and cosmetic andrology transform appearance of intimate zones to look younger and more natural. Different cosmetic procedures are used to reconstruct existing defects or inadequate conditions perceived by some patients. These procedures help them to regain self-confidence and can potentially improve intimate relationship and emotional life.

Despite an insufficient documentation on safety and effectiveness and undetermined standard of practice of genital cosmetic rejuvenation, a rising number of men and women are seeking these kinds of care and procedures.

COURSE OBJECTIVES: The course will provide an intensive training on invasive and non-invasive procedures in aesthetic gynecology, andrology and genital rejuvenation. With a heavy focus on LIVE DEMONSTRATIONS and VIDEO TUTORIALS, this course will emphasize practical content that can improve your technique with immediate results.

Upon completion of this module, the participants will be able to:

- Understand idea of different treatments and their applications
- Review treatment protocols
- Perform a competent patient assessment
- Identify potential complications, prevention and management strategies
- Determine genital rejuvenation techniques, technology application, indications and contraindications

9:00 - 10:30 - AESTHETIC SURGERY

11:00 THE ART OF BOTULINUM TOXIN AND FILLER "FROM CHAOS TO HOPE"
13:00 CHAIR: Hervé RASPALDO
Co-CHAIR: Michael KANE

Toxin and fillers help a lot to beautify our regular patients.

From our common experience of 25 years of facial plastic surgery we had to treat dramatic cases, to save several faces and lives.

The aim is to show how we use the art of botulinum toxin and fillers, after surgery or traumatic face or severe adverse events, to make those faces attractive again. And to give hope to those patients.

Each of us will share his long-term experience based on show cases, with technical details, tips and tricks, focused on injectable.

- Concept's introduction - Different kinds of Chaos - Hope for attractive midface & nose with injectable
- Dramatic lowerface & chin - Hope using toxin and fillers
- Chaos on the upperface - Subtle changes with injectable for a natural look Steven

GENERAL INFORMATION

CONGRESS LOCATION

AMWC CONGRESS is taking place at the GRIMALDI FORUM.
10 av. PRINCESSE GRACE, 98000 Monaco.
The Grimaldi Forum Monaco is lying along the seafront of Monaco's eastern "Larvotto" beach quarter, right next to Monaco's beautiful Japanese Garden.
The Grimaldi Forum Monaco is 25 Km from the International Airport « Nice Côte d'Azur ».
High-standard hotels are less than 5 min walk from the Grimaldi Forum. Consolidated by the exceptional quality of its infrastructures, the Monaco hotel business answers at the same time all the requirements of the tourism of business (affairs) and leisure. 2535 rooms are distributed on 15 hotels accessible on foot, offering all the styles (classic, Belle Epoque, contemporary, shop hotel). They propose 28 restaurants and 5 spas.
Take advantage of a delicious gastronomic stopping place to open you to all the world food. 170 restaurants adding up 8 stars make you discover an international cuisine.
Another particular aspect of your stay in the Principality where on a territory of 2 km² and in a privileged environment you can easily enjoy walking.

VISA

The passport and visa requirements for persons visiting Monaco as tourists are the same as for France. For further details, contact any French consulate in your country. Official letters which may be necessary in some countries for administrative reasons (VISA) can be sent by e-mail: registration@euromedicom.com. These letters do not engage the congress secretariat to any financial support neither obligation nor responsibility relative to the Visa.

REGISTRATION FORMALITIES

Pre-registration confirmation

Each attendee registered in advance will receive a confirmation of registration by the congress office. Please present a copy of your registration confirmation letter at the on-site registration to speed up the process. If you do not have a confirmation letter and there is no record payment receipt by the congress office, you will be required to provide payment on-site, even if you think a payment was remitted previously. Any duplicate payment resulting will be resolved following the meeting.

On-site registration, badge and congress material pick-up

The congress office registration desk will be located under the congress entrance tent (on the Esplanade zone). Please keep in mind that on-site registration can be time consuming. Everyone is strongly encouraged to register at least 15 days prior to the congress. You are reminded to bring your confirmation letter with you when you pick up your badge and meeting material. We recommend that attendees allow sufficient time to pick up their badges prior to the meeting, to avoid the missing of a session.

Please, wear your badge!

Attendees are required to pick up and wear their conference badges at all times throughout the meeting. No access into the Venue and Congress sessions will be allowed without wearing the badge. This allows us to ensure adequate security for your safety. If you misplace your badge, a 50 euros fee will be charged to replace it.
